Early-Career Development Grants Available for Echo Scientists *Deadline: July 1, 2023, 5:00PM ET*

The Foundation is accepting applications for the [Early-Career Development Grant for Echo Scientists \(EDGES\)](#). This program will award **three grants worth up to \$25,000 USD** to fund projects that address a clinical gap in cardiovascular ultrasound imaging through research led by an early career scientist. There are no specific research themes that will be prioritized, and clinical gaps may include, but are not limited to: new imaging technologies, novel approaches or populations for diagnostic imaging, ultrasound therapy, workflow automation, or patient/practitioner safety. Physicians, PhDs, veterinarians, sonographers, and other healthcare professionals who are within seven years from having completed training are eligible to apply. Full application details available online [here](#).

Cardiovascular Challenge

The Foundation is hosting its very popular [step challenge](#) during the [ASE 2023 Scientific Sessions](#). We will be tracking steps taken throughout the weekend so plan to pack your walking shoes and opt for the stairs instead of the elevator or escalator. Get up and moving this June with the ASE Foundation. Sign up

in advance [here](#). Thank you to this year's sponsors: **Bracco Diagnostics, Bristol Myers Squibb, Intersocietal Accreditation Commission (IAC), Mayo Clinic, Siemens Healthineers, and UltraSight!**

Congratulations to the 2023 TOMETC Innovator Research & Council Travel Grant Winners

Supported by a grant to the ASE Foundation from TOMTEC Imaging Systems, this annual award is given to assist a promising young researcher presenting his/her work at the ASE Annual Scientific Sessions. Application is open to investigators under 40 years of age who have an abstract accepted for presentation in one of the following research categories: novel technologies (3D, Doppler, or strain), valvular heart disease, or ventricular function. Please join us in congratulating this year's winner, **Juan Ignacio Cotella, MD, University of Chicago, Chicago, IL.**

The ASE Council Travel grants are part of an ongoing effort by the Foundation and the Council Steering Committees to encourage trainees in cardiovascular specialties to focus on the respective echocardiography subspecialty and to recruit enthusiastic new members to the Councils.
